The illsuccess of the Governor and Captain Buford, his right hand man, who really has all the capacity there is, at San Carlos, to manage Indian scouts, does not deter him from undertaking the task of keeping the Indians quiet. He proposes to hold himself responsible for the conduct of the Indians; but even this obligation of the youthful saint will hardly be accepted by the people of the Territory. No doubt the Governor and Wasson would both indorse him. Still, even that will not be sufficient to give the people confidence to allow the troops to be withdrawn, as recommended by General Sherman. If Clum and his backers only would suffer in case of failure, we should like to see him take charge of the whole business; but as an innocent people would be the sufferers we sincerely hope that the youth's endeavors to destroy the reputation of a wellcareer will be nipped in the bud. Mr. Clum evidently wants to vent his spite on General Kautz, and it at the expense of the inhabitants of the whole Territory.

MAIL TO GREENWOOD WANTED.

One of the greatest wants of the people living in Mohave county is more mail facil ities, and more especially is this applicable to Greenwood and vicinity. As it is now, mai for that part of the Territory sent from Prescott has to go to Ehrenberg, thence u; the river to Aubrey, etc., a distance of 30 miles, whilst it should and could be sup plied by the way of Kirkland Valley and old Camp Date Creek, a distance from Prescott not to exceed 85 miles, thus saving 217 or six hundred people who live in that portion of Mohave county their mail at least six days earlier than by the circuitous route now adopted. The people of the entire county of Mojave has long been neglected as regards mail facilities, and some action should be taken by those in power at Washington to remedy the evil.

Mr. Stevens has been in Washington for sometime, and appeal after appeal has been trary of what he claims for his pet.
